We are pleased to invite you to the opening event of **IN SITU** – a research project conducted between June and October of 2019.

As part of this investigation artists from Austria, Russia and France explored urban spaces around their studios on the outskirts of the city, getting to know local residents and making their presence in these places visible.

In the exhibition space Arthouse at CCI Fabrika the results of this project will be presented: from works created by the artists to documentations of performative actions.
